

## **Indicoll – more than just web design**

To whom it may concern;

Being involved in a busy award-winning, marketing, design and display studio servicing many high-profile clients means that the integrity and service levels of all our referral partners has to be of a high standard. Our valuable clients have very demanding requirements for internet marketing and demand responsive and immediate service to accompany our branding projects.

Jenko has outsourced several projects for the delivery of high-end and technically advanced web site projects to indicoll. I am pleased to say that Andy Hayes and his team at indicoll have frequently surpassed expectation in the delivery of these projects. Their knowledge and understanding, particularly of search engine optimisation methodology is excellent. I would be hard pressed to find another local supplier with this depth of skill and perception.

With the superb service from indicoll, Jenko now claim that all of our websites intuitively respond to SEO and are instantly compatible with smart phone and tablet technologies – this is no easy task! Being able to offer this as standard is a major USP for my company and I really value the input from indicoll.

I can thoroughly recommend the services of indicoll to any company that has a requirement for advanced online marketing, and I am glad to say indicoll will be our web development partner for the foreseeable future.

Colin Wilson,  
Creative Director
