big help for small businesses

24/08/2012

Dear Andy and the Team at Indicoll

I just wanted to take this opportunity to thank you for all your effort and support in providing me with a professional and excellent quality web site.

Running a book keeping business service is challenging and at times demanding and finding time for myself is sometimes very difficult. New into business I soon realised how important it is to have a professional web site and how impossible it is to try a do it yourself.

Andy and his team designed my web site, came up with ideas and suggestions and provided me with a top quality web site that I am very proud of.

It gives me great pleasure to write this testimonial to record my appreciation of the wonderful service provided by Indicoll and to say thank you so much.

Yes Indicoll you are more than web design.

Kind Regards

Andrea Fisher
